BAKESHOP

Original Recipe

Business Card or Mini Wallet

 Moderate

Hi! This is Kim with Lily Patch Quilts. I am sew happy to be back with another quick and fun tutorial just in time for holiday gift giving.

Original Recipe can be found at www.modabakeshop.com

Ingredients:

- 2 coordinating fat quarters
- 1/8 yard heavy weight fusible interfacing
- 2 - 1/2"-5/8" sets of heavy duty snaps
- Snap setting tools
- Marking tool
- Medium size spool of thread (rounding corners)

Instructions:

- Cut 2 - 4 1/2" x 7 1/2" from each fat quarter (2 lining, 2 outer wallet)
- Cut - 4 - 4 1/2" x 7 1/2" heavy weight interfacing

Step 1

Iron interfacings to the wrong sides of all fabric pieces. Take the spool of thread and place at the corner where your flap will be. Mark around one side of the spool and cut on the marked line to create a rounded corner.

Here are the lining and outer pieces with the flap trimmed.

Step 2

Take the outer wallet piece with the straight side, use the socket and place a mark 1" from the straight edge. Punch or cut out the hole. Assemble the socket and cap post according to the manufacturer's

Original Recipe can be found at www.modabakeshop.com

instructions. Hammer until the stud and post is in place. I used the tools that came with the snap plus a craft hammer. Make sure to place the snaps on a really hard surface like hardwood or tile.

Step 3
Place the lining and outer piece right sides together.

Original Recipe can be found at www.modabakeshop.com

Sew all the way around, leaving an opening large enough to turn. Clip corners.

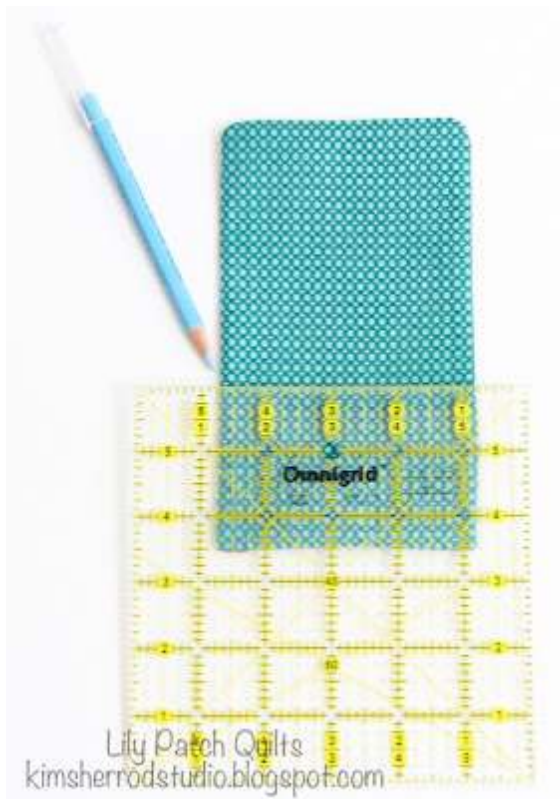

Step 4

Turn right side out. Press to remove wrinkles. Make sure the opening is pressed even with the side seams.

Original Recipe can be found at www.modabakeshop.com

Step 5
Mark a line 2 1/2" from the straight edge.

Fold the straight edge up to form a pocket. Pin and sew around 3 sides, starting at the bottom corner and sewing around the flap to the opposite corner.

Original Recipe can be found at www.modabakeshop.com

Step 6

Fold the flap down and press to make an indentation on the flap. Mark a hole in the center of the indentation, cut or punch out the hole.

Insert the socket and cap into the flap. Following the manufacturer's instructions. Hammer the socket and cap until it's in place. Press the flap area avoiding the snap to help the flap to lay flat.

Your business card/mini wallet is finished.

Original Recipe can be found at www.modabakeshop.com

Yield:

This will make 2 business card holders or mini wallets. I called this a business card/mini wallet because it's so versatile. It will hold money, business cards or gift cards. This will make a great stocking stuffer.

I would love to have you post your business card/mini wallet in the MBS' flickr group and Lily Patch Quilts flickr group.
