## BAKESHOP

Original Recipe

### Fabric Envelopes by Tammy Blackburn

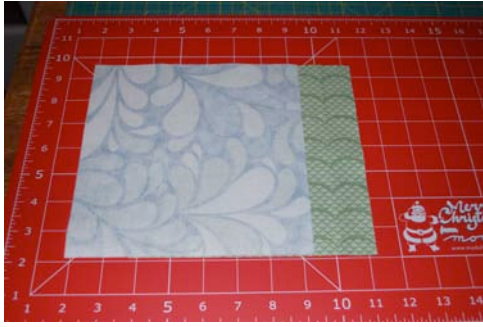

Hi There!! I'm Tammy from Karamat {[karamatdesigns.blogspot.com](http://karamatdesigns.blogspot.com)} back with another quick project. It seems lots of my friends are using a cash budgeting system or putting aside a few dollars here and there for a special trip. So I put together these fun little wallets to keep organized.

### Ingredients:

- 1 Fat Eighth bundle of Salt Air
- Optional: Fusible Interfacing

Original Recipe can be found at [www.modabakeshop.com](http://www.modabakeshop.com)

## Instructions:

For each wallet, select 2 pieces of fabric, cutting a 7.5" x 7.5" from each piece. For a little extra sturdiness, a piece of fusible interfacing can be fused to the wrong side of the fabric to be used for the exterior of the wallet.

With right sides together, and using a 1/4" seam, stitch around the squares, leaving an opening for turning.

Turn right side out, and press.

Top stitch the top and bottom of the square with a 1/8" seam, making sure to close the opening used for turning.

If you would like to add labels to your envelopes, now would be the time. Cut a small piece of neutral fabric (mine is about 1 1/2" x 2") and topstitch onto the envelope front. You'll be able to add your category with a Micron or thin-tip Sharpie pen.

To finish up, fold your fabric in half, with the previous topstitching at the top, and sew together the side seams with a 1/4" seam.

## Yield:

Each Fat Eighth piece will yield 1 envelope.
