BAKESHOP

Original Recipe

Moderate

Hi! My name is Kimberly from [Peas in a Pod Creations](#). The Moda Bake Shop is one of the main influences that inspired me to start quilting, and I am so excited to be making my debut here today.

Ingredients:

- 1 Jelly roll (For this quilt I used fabric from Kate Spain's line *In from the Cold*)
- 1 yd green fabric (Juniper with white berries)
- 1 ½ yd blue fabric (Mint with snowflakes)
- ½ yd grey (Icicle)
- 4 yd backing (Mint with hot cocoa)

- ½ yd binding (Hearth with cookies)

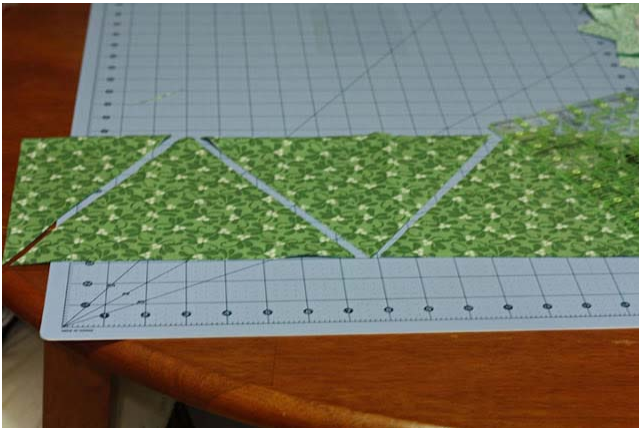

Original Recipe can be found at www.modabakeshop.com

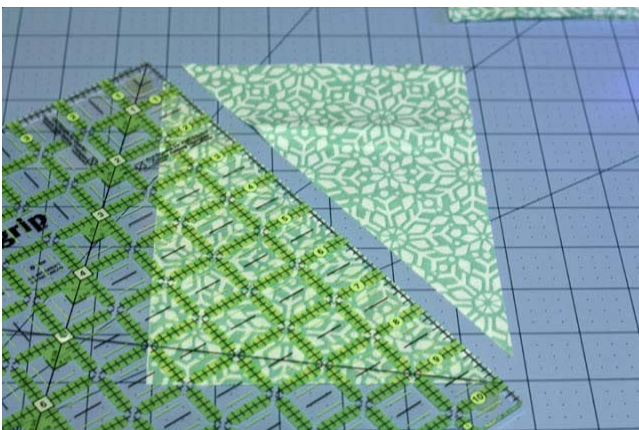

Instructions:

Tree Blocks:
make 32

Cut (5) 7" strips from green. Cut strips into triangles with 9" base and point at 4.5". (I lined my ruler up on 0 to 4.5" and then 4.5" to 9" and cut triangles as shown.)

Cut (8) 5" strips from blue. Cut each strip into 7.25" rectangles. Keeping rectangles in pairs with wrong sides together cut rectangles in half diagonally.

Sew blue triangle to side of green triangle. Press and repeat on other side of tree. (Your trees will look much better if you take time to press at this step.)

*Without going into complicated geometry and templates this was the best way I found to make these trees. Your edges will be a bit wonky, but this is okay. When the block is finished it gets squared up and will look great.

Original Recipe can be found at www.modabakeshop.com

To create trunk cut left over blue into 2.5" x 4" strips. Cut grey into 1.5" x 2.5" pieces. Sew blue rectangles to each side of grey piece. Sew to bottom of tree and square up block to 8.5".

Snowflake Blocks:
make 31

Divide jelly roll strips into lights and darks. (With *In From the Cold* I used the reds and greens as my darks and the whites, greys, and blues as my lights. I chose to remove the fabrics I used in the tree block.) Cut each jelly roll into two 18" strips.

Original Recipe can be found at www.modabakeshop.com

Strip piece the lights and darks. Press towards the dark and cut into (4) 4.5" pieces.

Turn top piece so that the light and dark edge matches up with the light edge of bottom piece. I found it worked best to have the light edge on bottom so that the feed dogs didn't have to worry about a seam and fed pieces through as shown. Press.

*Consistency is very important here. Make sure you lineup all of your blocks in the same way and feed them through in the same direction.

Sew with light sides facing seam and press.

Assembling the Top:

Arrange Tree and Split Rail Blocks into 9 rows of 7 blocks.
Baste, Quilt, and Bind as desired.

Yield:

One 72"x56" quilt.

Original Recipe can be found at www.modabakeshop.com

Hop over to my blog to see how I used the leftovers from the jellyroll to create a cute pieced back and a label for the quilt.
