Original Recipe

Lollipop Quilt by Jane Davidson

Hi, I am Jane from **Want it, Need it, Quilt it!** {www.quiltjane.blogspot.com} and today I am bringing you a sweet treat that has no calories.

Lollipop is a deliciously colourful collection from Sandy Gervais for MODA that I made into a child's snugly quilt or play mat. It would even make a cute wall hanging to brighten up a child's room.

This quilt is a simple project that can be pieced, quilted, and ready for snuggling in no time. Enjoy!

Ingredients:

- 2 x Lollipop charm packs by Sandy Gervais for MODA
- 1/2 yard Brown Lollipop fabric for binding (#7521 444)
- 1 1/4 yards of Lollipop fabric for backing (# 17553 13)
- 40" x 40" piece of wadding
- 5" circle template
- Fusible webbing
- Embroidery Floss

1/4 " seam allowance used for all piecing

Original Recipe can be found at www.modabakeshop.com

Instructions:

Step 1 - Separate the solids from each charm pack.

Step 2 - Separate the remaining charm squares into groups of the same colours.

Step 3 - Choose one (1) charm square from each colour group with a small print. These will become the seven lollipops.

Step 4 - Place the circle template on the right side of your lollipop square and centre. Trace around it. Draw a freehand swirl on the right side of the square.

Step 5 - Using two (2) strands of embroidery floss, embroider the swirl design on each lollipop.

Step 6 - Iron fusible webbing to back of charm and cut out circle. Make seven (7).

Step 7 - Let's make the sticks for the Lollipops.

- Select some contrasting fabrics from the charm square pack
- Cut 1" strips from selected charm squares. The strip should measure 1" x 5"
- Fold 1/4 seam at one end of the strip
- Press the strip in half lengthways and open
- Press each long edge to the middle to form a stem 1/2" wide.
- Cut a 3/8" x length of stem of Fusible webbing. Iron on back of stem

Step 8 - Sew the same solid colour pairs together.

Step 9 - Place the lollipop and stick on the solid block, tucking the stick under the Lollipop. I measured 3/4" from the top and 3/4" from the bottom of the block. Iron the stick and Lollipop onto the block. Use your favourite technique to applique the Lollipop to the block. I machine appliqued the Lollipop with a neutral thread.

Step 10 - Select random pairs from the remaining charm squares to make twenty five (25) blocks.

Step 11 - Lay out the blocks like diagram below. Sew the blocks together to form rows and then join the rows

Step 12 - Layer the backing, batting, and quilt top. Quilt as desired. I used Perle 8 cottons and stitched around the Lollipops.

Step 13 - Cut four (4) x 2 1/4" strips from the width of fabric (WOF) to make binding. Attach binding to quilt.

Original Recipe can be found at www.modabakeshop.com

Voila - You have completed the quilt! Now add a label, photograph it and give it to someone you love.

Yield:

One hugly, snugly, delicious quilt.

Finished size of quilt 35" x 35"

Finished Block Size 4 1/2" x 9"
