## BAKESHOP

*Original Recipe*

### Patchwork Chevron Quilt by Jeni Baker

Hello all! I'm Jeni from In Color Order {[incolororder.blogspot.com](http://incolororder.blogspot.com)}! I'm very excited to be here today to share a fun and quick lap quilt with you!

This quilt was inspired by a serious love for patchwork; it just makes everything better! I have loved working with Aneela Hoey's previous fabric collections, and a Walk in the Woods did not disappoint! I had fun showcasing the sweet prints in this quilt!

*Original Recipe can be found at [www.modabakeshop.com](http://www.modabakeshop.com)*

## Ingredients:

- 4 charm packs of A Walk in the Woods by Aneela Hoey
- 2 1/2 yards of Moda Bella White 9900 97
- 5/8 yard of A Walk in the Woods 18525 13 (circles on gray) for binding
- 5 yards of A Walk in the Woods 18522 13 (birds on gray) for backing

\*Note: Use 1/4" seam allowances throughout

## Instructions:

### Cutting

From Moda Bella solid:

- Cut 6 strips: 14" x width of fabric
- From those strips, cut (3) 14" squares from each, for a total of 18 squares.

Take apart your 4 charm packs. Pick out 6 squares and set them aside, you won't need them for this quilt!

### Piecing 9-Patch Blocks

First we'll be piecing traditional 9-patch blocks to make the patchwork!

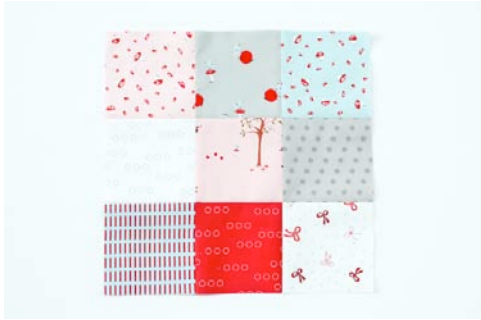

Grab 9 squares and arrange them in a simple 3x3 layout, making sure to get plenty of variety in prints.

Original Recipe can be found at [www.modabakeshop.com](http://www.modabakeshop.com)

Piece the squares together in each row. Press seams open.

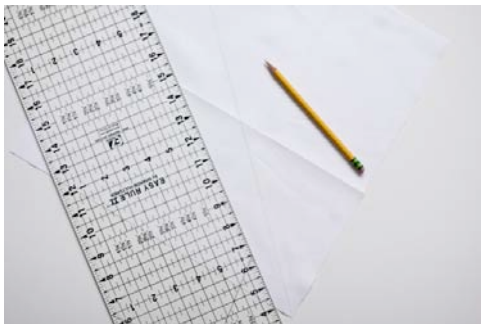

Sew the three rows together to complete the 9-patch block. Press seams open.

Make a total of (18) 9-patch blocks!

*If you'd like to chain-piece the rows for these 9-patch blocks, you'll need to first separate your squares into two piles: 108 squares and 54 squares. Piece the 108 squares into pairs. Now join each pair with a single square (from the other pile!). This will give you 54 rows that can be pieced into 18 blocks!*

### Piecing Half-Square Triangle Blocks

Now that you've completed your 9-patch blocks, we'll be using them to make half-square triangles!

Take your 14" solid squares and draw a line diagonally from corner to corner using a ruler and pencil. Do this to all 18 squares.

Place a 9-patch block and solid square together, with your pencil marked side facing up. Pin in place.

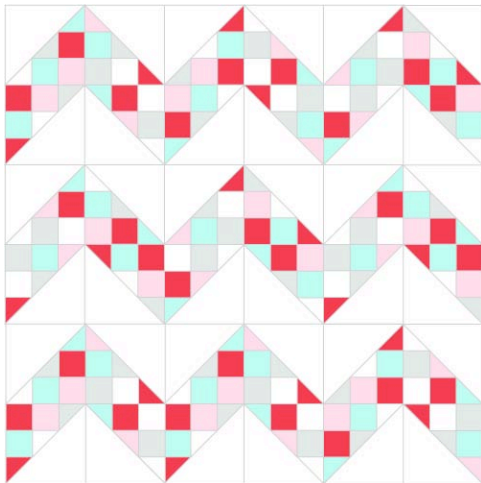

Sew 1/4" on either side of the pencil line.

Using your rotary cutter (or scissors), cut along the pencil line, separating your half-square triangles.

Press seams toward the solid triangle to reduce bulk. Repeat with remaining squares until you have a total of 36 half-square triangle blocks.

### Finishing

Arrange your blocks, 6 rows of 6 blocks, in a chevron pattern as shown in the diagram:

Piece your rows together, pressing seams in alternating directions. Pin your rows together, matching up the block seams. Don't worry about the patchwork seams; they won't match up! Sew your rows together and press seams open. Your quilt top is done!

*Original Recipe can be found at [www.modabakeshop.com](http://www.modabakeshop.com)*

To piece your backing, first cut your backing yardage in half. Press. Carefully trim off the selvages and sew your pieces together lengthwise.

Now you're ready to baste and quilt! I quilted mine using a doodle-like free motion quilting pattern. I wanted something fun and whimsical to play with the sweet prints in this line! Finish off your quilt with binding made from the gray circle fabric! Yay, you're done! :)

## Yield:

A cheerful lap quilt! Before washing it should measure approximately 78"x78".

Throw it in the wash for wrinkly goodness!

I hope you've enjoyed this tutorial! Happy Sewing! :)

Cheers,

Jeni Baker
