Walnut Squares is made with thirteen alternating rows:

- 4" finished HTSS. There are seven rows of seventeen - 17 - HTSS. The HTSS are randomly arranged - the direction and light/dark placement does not have a pattern.
- 8" finished HTBs. There are six of these rows. Each row has seven - 7 - 8" HTBs and six - 4" HTBs sewn to make a 4" x 8" finished strip. As with the other row - the placement is random. ;)

Join the parts to make rows. Join the rows to finish the quilt top.

How easy was that?

Go enjoy the last of the Walnut Squares... then
bake another batch.

And yes, there are 13 - 4" finished HTBs leftover -
I used them in a pillow. ;)
