It’s not just another walk in the woods for this brother and sister. Who knows what furry little creatures might be hiding just around the corner? It’s always an adventure making their way through the forest for this fearless duo.

The Hansel and Gretel fairytale was inspiration for this collection. From the cute little woodland creatures to a house made out of candy, this collection is inspired by the mysteries that can be found in the woods, real and imaginary. Pink and green were used for the collection to convey a boy and girl collection with browns and creams to add warmth to the collection.

*Just Another Walk in the Woods* would be great for a children’s room or nursery. Quilts, bedding, diaper bags, purses, pouches and girls’ clothing. There are a lot of great solid prints that would also be great for home furnishings and kitchen.
