Nocturne (n.) – a love song to the night
We are aspiring astronomers and have spent many winter nights gazing heavenwards trying to glimpse distant planets and stars. On our first outing with the telescope we ate bangers (sausages) and beans round the bonfire and then took it in turns to peer at the moon in all its pale, shadowy splendour. But my favourite star gazing evening was spent watching a meteor shower. We sat wrapped in blankets and looked up to catch the occasional glimpse of rapidly streaking light. Coming inside hours later, chilled to the bone and with a creak in your neck is a small price to pay for a night full of stars bright above you.
