sweet. marion

by April Rosenthal of Prairie Grass Patterns

Sweet Marion is a collection of retro-inspired florals and versatile blenders that are fun, fresh, and beautiful. Navy, blush pink, aqua, ochre, and grey combine for a new and on-trend palette that is sure to delight and inspire sewists of all ages.

My Grandma had a beautiful oasis in her backyard filled with lush flower beds and climbing roses. She even managed to have blessed shade in the hottest desert temperatures. Some of my fondest memories are of spending summer mornings in her garden, pulling the few weeds. I would barely get anything done before she would be at the back door calling to me, "It's too hot out there to weed! Come in and have a chocolate pudding!"

Sweet Marion, named for my lovely, soft-spoken Grandma is a reflection of her gentle way and beautiful heart. She loved pinks, and blues, and me. I hope this collection brings you many hours of happy creating! xoxo, April

Great mix of Vintage and Modern!
