Discover the best nature has to offer while traveling by trail along the Canadian border. At the Trail’s End, deepest into the forest, you may spot a moose or a bear and the sounds and color are as if no human being has been there before you. It is a feast for the eyes, colors so rich you can reach out and touch them. That thought was our inspiration for Trails End, bringing you those rich colors in warm brown and rich walnut with the clay and carmel accents for the beautiful fall leaves and of course all the wonderful greens from nature’s palette.
