WEATHER PERMITTING

“We’ll weather the weather, whether we like it or not.” - Anonymous

They say...

that the only topic of conversation here in the UK is our charming weather. And I’d like to tell you that it’s not true but, well… I haven’t had too many conversations where it hasn’t come up!

So it is high time this Brit designed a few pieces of weather-inspired fabric!

**Weather Permitting** is polite and friendly: a little warm rain on a summer day, a good breeze to blow the cobwebs away, and fluffy white clouds floating by in a blue sky.

Add a map of the world and some meteorological symbols and you’re got all you need to create quilts for explorers, daydreamers and scholars, for holidays, picnics and beach days… or even those feeling “under the weather” days.
