## Construction

- 1 Trim *Isn't Christmas Jolly* center panel 1/4" beyond the narrow white border (outside the narrow red border). Then measure length of the trimmed panel. *Note: Use this measurement to cut green tonal dot center side border.*
- 2 Cut 2 green dot borders to the above measurement. Sew to the sides of panel. Press borders away from the panel. Measure width of panel, including green side borders, and cut top and bottom borders to that measurement. Add to top and bottom of the panel. Press away from the panel. Repeat above steps to add white border strips to quilt center. Sew sides first then top and bottom. Press away from the panel. Use rotary cutter to trim quilt center to measure 28 1/2" x 32 1/2" with seams.
