Scallop Design

provides breathability, keeping your finger cooler.

Excellent Elasticity

helps the thimble form to your fingertip for a light fit.

Safe and Smart

with a ridged and dimpled metal cap which holds the needle tip in place. Push your needles in safely and confidently.

A brand new shape created to give you a perfect fit. The first ever finger-shaped leather thimble, from 3-dimensional stitching technology.

No seams or stitches where the needle hits the thimble, allowing the needle to be pushed from the most convenient spot.

The unique shape creates a smooth curve from the edge of the fingertip to the middle of the finger. A cozy, natural fit.
