

New!

The Fabulous Fabric Glide

- A set of two sizes, 7" x 7" and 9" x 9", of semi-hoops that control the fabric during free-motion quilting on a standard home sewing machine.
- Easy to use and extremely light weight.
- Hold gently with both hands while the bottom surface rests lightly and securely on the fabric.
- It will retain the desired position in all directions while preventing bunching.
- Relaxed hand positioning prevents hand, wrist and shoulder fatigue.
- The squared shape allows a greater area to be quilted.

Stock # TGQ5

The Gypsy Sit Upon

Place the softly inflated disc in your chair to prevent fatigue, reduce pressure on the tailbone and help to relieve lower back pain, while strengthening core muscles and improve posture.

Place smooth side down. The knobby texture allows air flow for cooler seating and promotes improved blood circulation.

Air filled and will stay soft and comfortable. Can be used in hard or soft chairs, recliners, car seats or anywhere you sit for long periods of time.

The Original Gypsy Gripper

Stock #TGQ2

A must have tool for Quilters. Easy to position and to hold. Features a comfortable grip handle and two large suction cups with hand lock and release levers. Just press the suction cup to any plastic or metal ruler that is at least 4" wide, including most rectangular, square or triangle shapes, then flip the levers to lock in place. Flip the levers to release. Keeps your hand up and out of harm's way

The Little Gripper

The perfect way to hold your small rulers in place. The LITTLE GRIPPER has a comfortable grip handle with a simple locking lever, and a small round suction cup to secure your ruler. The nifty sculptured handle fits between the fingers and thumb. This handy tool will make a difference with your smaller rulers and templates for intricate cutting jobs.

The Incredible In-Between Gripper

Another companion for the *Original Gypsy Gripper* and *The Little Gripper*.

It is smaller than the Gypsy Gripper, but larger than the Little Gripper. It is 5" tall and features a suction cup that is 4" in diameter. It also has a little "ear" that sticks out with a dot on it to show when it is fastened.
