"It's What's Inside that Counts!"

*New!*

## It's What's Inside That Counts!"

A corny catch-phrase? Maybe, but at **Innovative Craft Products** we actually believe it!

At **ICP**, we believe the selection of the best stabilizer, batting, batting alternative or adhesive is as important as the selection of the right fabric to the success of your finished design. That is why our research and development starts with you, the home crafter. You see, at **ICP** we take the creativity and ingenuity of crafters, quilters and designers and translate that into unique, smart, effective craft products that will not only yield an excellent finished craft project, but will save you time and money as well.

# New!

- Inn-spire feels like a typical stiff, handbag stabilizer which you can currently find on the market. However this revolutionary formula allows you to heat the material and mold it into any shape imaginable.
- When it cools it will stiffen and hold the shape permanently.
- This stiff, non-woven, heat-set, moldable stabilizer, is designed for dimensional crafts, handbags, ornaments, bowls, boxes, and vases.

**20" x 36" pkg**

**Inn Spire Heat Nonwoven**  
20" x 36" pkg  
Stock# 4300  
Pk. 1 Min. 2  
Retail \$12.99

**20" x 36" pkg**

**Inn Spire Plus Nonwoven**
