"Where Speed and Accuracy Meet"

Sticks & Stones Rulers

2" STRIPS

These rulers produce rectangular shapes with triangles on one or both ends in 2" and 2 1/2" unsewn widths up to 12 1/2" long. The triangles can be sewn to be mirror images or going in opposite directions. Or, the triangle can be sewn on one end of the rectangle only. The rulers also have lengthwise measurement markings for easy adjustments to produce different length strips. Some other ways to use the rulers are (1) To produce rectangle strips with diamonds in the middle of the strip, or (2) To create one fabric color at one end and another fabric color at the other end. No matter what results you wish to produce, there are NO little squares to sew or position in place.

RULER:
12-1/2" X 12-1/2"

This ruler is designed to work with blocks on a 4 x 4 grid and also referred to as the 2 x 2 grid. The most familiar block in this category is the Four Patch Block. Use this ruler to produce perfect Snowball Blocks in five different sizes. This ruler also works well with the following grids: 2 x 2, 4x4, 8 x 8, 16x16, and 32 x 32. This ruler can also be used to "Snowball" corners of rectangles. Explore the unlimited possibilities of this ruler. NO MORE frustrating little squares to sew or position in place.

Snow Ball Rulers

GRID:
3" X 3"

RULER:
12-1/2" X 12-1/2"

This ruler is designed to work with blocks on a 3 X 3 grid which is any block divisible by 3. The most familiar block in this category is the Nine Patch Block. Use this ruler to produce perfect Snowball Blocks in five different sizes. This ruler also works well with the following grids: 6 X 6, 12 X 12, 24 X 24, and 48 X 48. In addition, the ruler can be used to "Snowball" corners of rectangles as well. The possibilities to produce spectacular results are endless. There are NEVER any little bitty squares to sew or position in place.
