

## HandyNets

Loosely-knit netting to prevent thread from sliding down the cone. Wrap net around the cone of thread while in use. Leave net in place when storing thread to prevent unwinding.

Recommended for:

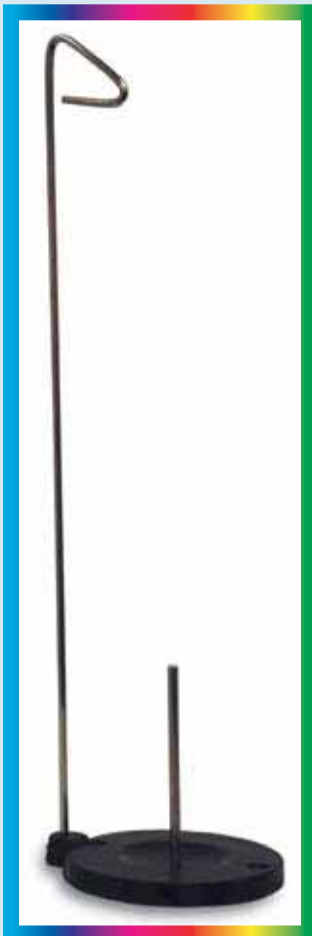

- **Brytes**
- **Metallic**
- **Rainbows**
- **MonoPoly**, and other smooth threads

Each net is approx. 6 inches long.

## Heavy Duty Thread Stand/Cone Holder

This is a weighted, all metal thread stand.  
It won't tip over like the budget plastic ones.

17<sup>3</sup>/<sub>4</sub>" tall and 4<sup>3</sup>/<sub>4</sub>" wide at the base.

Thread Stand Heavy Duty
