Peony buds, round and full, burst open to magnificent blooms, full of romance and beauty! Blushing, but certainly not bashful, these peonies bring spring color and splendor into your home. The pinks, corals, and greens of the garden mix with the calm soft grays of early morning dawn or evening dusk. Just as bold and glorious as nature intended, these peonies are large and lovely and add a dramatic presence in large blocks and in your sewing projects! The collection adds to the feeling of a romantic garden with floral sketches and cameo-like shapes. The botanical sketchbook is full of color and life!
